

Smart Doll Pear Bra

Altered from Danny Choo's sports bra pattern by Laz S.

1/4" seam allowance

Directions

1. Cut the pattern using a knit fabric with a bit of stretch. **Do not** use a woven fabric such as quilting cotton; it will not work.
2. Hem the bottom edge using a zig-zag or stretch stitch.
3. Hem the top edge.
4. Sew the two sides together along the back seam.
5. Cut 2 pieces of 1/8" (3mm) ribbon about 5-6" (13-15 cm) long and apply a fray-blocker to the ends. These will be the bra straps. Sew one end to the top of the cuff.
6. Put the bra on your doll inside-out. Adjust the straps so that they gently tug the cups into a normal bra shape.
7. Pin the straps carefully to the back of the bra, being extra-careful not to poke holes in your doll!
8. Remove the bra from your doll and sew the back ends of the straps in place.
